

Respiratory Care WA

Asthma | COPD | Respiratory Health

Looking for free, personalised, local community respiratory services?

The Respiratory Care WA team, which includes dedicated Respiratory Technicians and Respiratory Physicians, provide Lung Function Testing and personalised support services for people with asthma and chronic obstructive pulmonary disease (COPD).

Our services at our **Adult and Children's Respiratory Hubs across WA** include providing one-on-one asthma and COPD consultation and respiratory education sessions, in which we cover topics such as:

- Personal triggers
- Assessing severity and control
- How medications can help manage your condition
- How to use an inhaler, spacer and medications
- Understanding and managing individual triggers
- Establishing an asthma or COPD Action Plan
- Asthma first aid and emergency scenarios

Our respiratory health professionals also perform diagnostic Lung Function Testing. Child and adult Lung Function Testing is **bulk billed**. All tests reported on by our Respiratory Physicians are shared **directly with you**.

To refer a patient to our Respiratory Hubs, **scan the QR code to the right**. If you have any questions don't hesitate to contact us at **(08) 9289 3600** or email us at **referrals@respiratorycarewa.org.au**

*Our services support a **90%** reduction in emergency presentations after initial visit and an **89%** reduction in hospitalisations after an initial visit for our consumers.*
